Build Your Own Lisp By Mr Daniel Holden

If you've ever wondered how to build your own programming language or wanted to learn C but weren't sure where to start, this is the book for you. In under 1000 lines of code you'll start building your very own programming language, and in doing so learn how to program in C, one of the world's most important programming languages. Along the way we'll learn about the weird and wonderful nature of Lisps, the unique techniques behind function programming, the methods used to concisely solve problems, and the art of writing beautiful code. Build Your Own Lisp is a fun and creative journey through a fascinating area of computer science, and an essential read for any programmer, new or old!

Editorial Review

About the Author
Daniel Holden is a PhD student at Edinburgh University doing research into machine learning, and data driven approaches to character animation. He is a prolific C hacker with a flair for creative and interesting projects, that have gathered considerable attention in the open source community. As well as hacking on C, he enjoys writing short stories, constructing digital art, and game development.

Users Review

From reader reviews:

Christopher Helland:

People live in this new moment of lifestyle always aim to and must have the extra time or they will get large amount of stress from both way of life and work. So , whenever we ask do people have time, we will say absolutely without a doubt. People is human not just a robot. Then we inquire again, what kind of activity do you have when the spare time coming to you of course your answer will probably unlimited right. Then do you ever try this one, reading books. It can be your alternative with spending your spare time, the particular book you have read will be Build Your Own Lisp.

Jerry Petrus:

Playing with family in a park, coming to see the sea world or hanging out with good friends is thing that usually you may have done when you have spare time, and then why you don't try factor that really opposite from that. 1 activity that make you not experience tired but still relaxing, trilling like on roller coaster you are ride on and with addition of information. Even you love Build Your Own Lisp, you can enjoy both. It is great combination right, you still desire to miss it? What kind of hang-out type is it? Oh can occur its mind hangout people. What? Still don't buy it, oh come on its identified as reading friends.

Vicky Gamez:

Within this era which is the greater individual or who has ability to do something more are more special than other. Do you want to become among it? It is just simple way to have that. What you must do is just spending your time little but quite enough to have a look at some books. Among the books in the top record in your reading list is usually Build Your Own Lisp. This book that is certainly qualified as The Hungry Mountains can get you closer in turning into precious person. By looking upward and review this publication you can get many advantages.

Claudette Everett:

Reserve is one of source of understanding. We can add our understanding from it. Not only for students but

also native or citizen will need book to know the update information of year to help year. As we know those textbooks have many advantages. Beside we all add our knowledge, could also bring us to around the world. From the book Build Your Own Lisp we can have more advantage. Don't you to be creative people? To get creative person must love to read a book. Simply choose the best book that appropriate with your aim. Don't always be doubt to change your life at this book Build Your Own Lisp. You can more desirable than now.
