Editorial Review

From the Back Cover
Your Guide to Successful Welding Welding is a valuable skill that almost anyone can learn. This comprehensive handbook gets you started with tips and suggestions from an experienced welding instructor. Straight to the point and easy to read, it covers all of the major types of welds, including arc welding, MIG welding, gas welding, TIG welding, plasma cutting, and more. This extremely detailed book is an ideal reference for farm, home workshop, school workshop, blacksmith shop or auto shop. Hundreds of step-by-step photographs illustrate welding processes and show the differences between good welds and bad welds. The author points out common pitfalls and mistakes, and offers constructive advice on how to correct or avoid problems. Whether you are a complete beginner or an experienced welder who wants to learn more, Farm and Workshop Welding provides a wealth of useful shop-tested advice. You'll discover everything you need to know to learn hands-on welding, and start repairing and creating metal equipment and structures. Inside you'll find practical instructions for: - Cast Iron Welding - Pipe Welding - Hardfacing - Soldering - Welding Plastics - Metal Identification - Welding Safety - Workshop Techniques - Drill Sharpening - Taps and Dies - Basic Blacksmithing

About the Author
Andrew Pearce grew up in Kent, England with motorcycles, cars and farm machinery. After study at the University of Nottingham's School of Agriculture, he worked for several years on a farm in Sussex. During this time, he started writing, first for Power Farming and later for Farmer's Weekly. A former instructor of welding and other practical skills, he currently divides his time between writing and the farm workshop.

Users Review

From reader reviews:

Edward Christensen:

Now, why not trying Farm and Workshop Welding: Everything You Need to Know to Weld, Cut, and Shape Metal that give your fun preference will be satisfied through reading this book. Reading routine all over the world can be said as the opportinity for people to know world much better then how they react towards the world. It can't be stated constantly that reading behavior only for the geeky person but for all of you who wants to become success person. So , for every you who want to start reading as your good habit, you are able to pick Farm and Workshop Welding: Everything You Need to Know to Weld, Cut, and Shape Metal become your starter.

Mary Varnum:

As a scholar exactly feel bored in order to reading. If their teacher requested them to go to the library as well as to make summary for some guide, they are complained. Just small students that has reading's internal or real their passion. They just do what the teacher want, like asked to the library. They go to generally there but nothing reading critically. Any students feel that examining is not important, boring along with can't see colorful images on there. Yeah, it is to become complicated. Book is very important in your case. As we know that on this period of time, many ways to get whatever we want. Likewise word says, many ways to reach Chinese's country. So , this Farm and Workshop Welding: Everything You Need to Know to Weld, Cut, and Shape Metal can make you really feel more interested to read.
