Love Thyself: The Message from Water III (v. 3) By Masaru Emoto

"The common language that the people of the world have been seeking is found in water crystals. Water speaks for what is in our mind. Water awakens the subconscious memory in each person. . . . I now know why water is indispensable to the phenomenon of life, and why alternative therapies exist and why they're effective. Water helped me understand religion and prayer and gave me a clue to understanding the nature of energy. It helped me understand the relationship between humanity and the cosmos. It gave me a clue to help me understand what dimensionality is. I could come one step closer to understanding the eternal theme of humanity that asks where we come from, why we are here, and what happens when we die.

"Thus, for the release of this, the third volume in my series of **The Message from Water,** I decided to choose what the world most urgently needs at present as a theme. That is, of course, the need to eliminate war and terrorism throughout the world. The theme I have chosen is 'prayer.' When I thought about it more deeply, I realized that prayer is most effectively sent when each person in the world raises their energy of love by imagining a scene where the peoples of the world are living in peace. I've been taught this through the process of asking water many questions.

"For this reason, the title of this book is 'Love Thyself.' First you must shine with positive, high-spirited vibrations, and be full of love. In order to do that, I think it's important to love, thank, and respect yourself. If that's the case, then each of those vibrations will be sent out into the world and the cosmos, and the great symphony of that harmonic vibration will wrap our planet in waves of love that serve to cherish our Heaven-granted lives. This is the message from water."

Editorial Review

Review
"magnificent...genius...His research in spiritual consciousness is positively masterful." Caroline Myss, author of Sacred Contracts"

About the Author

Masaru Emoto was born in Yokohama, Japan, in July 1943. He is a graduate of the Yokohama Municipal University's Department of Humanities and Sciences with a focus on international relations. In 1986 he established the IHM Corporation in Tokyo. In October of 1992, he received certification from the Open International University as a doctor of alternative medicine. Subsequently he was introduced to the concept of micro cluster water in the U.S, and Magnetic Resonance Analysis technology. The quest thus began to discover the mystery of water.

Users Review

From reader reviews:
