Honor Betrayed: Sexual Abuse in America's Military By Mic Dr. Hunter

In Honor Betrayed, Dr. Mic Hunter probes beyond the headlines to reveal the reality of sexual abuse in the military. The culture of the military's training is to turn recruits into those who follow orders without question. Honor Betrayed describes in detail the gross realities of the hostile, uber-masculine, dehumanizing environment our young men and women confront. Most vulnerable to sexual abuse are minorities-particularly women and homosexuals. Included are first-person accounts from American servicewomen and men who were sexually abused by their comrades, including one woman whose case was heard before the U.S. Supreme Court. Hunter also explores the tacit acceptance of these incidents in the military to the recent prisoner abuse scandal in Iraq.

Editorial Review

From Booklist
Illuminating a problem U.S. armed services still try to hide, Hunter shows that women and homosexuals in all four services risk sexual harassment and attack from their comrades. Reasons for this include many recruits' belief that being in the military proves "manhood"; the hierarchical system allowing the higher ranked to get away with abusing the lower ranked; the unwillingness of the lower ranked to get involved when a comrade is abused lest they suffer something similar; the unwillingness of the higher ranked to interfere with the system; and the custom of denying and covering up potential scandal. Hunter points out that actual abusers are a minority, but their influence is disproportionate because of the expectation that one will "bend and spread 'em" for one's superiors. Also, officers in policy-making ranks cannot conceive of or won't take effective action, despite the low morale abuse generates and the need for effective, well-disciplined troops. Hunter's abused interviewees talked to him because he isn't a veteran and so, they thought, would believe them and not cover up their stories. Murray, Frieda

Users Review

From reader reviews:

Eunice Bourque:

In this 21st century, people become competitive in every single way. By being competitive right now, people have do something to make these individuals survives, being in the middle of the actual crowded place and notice through surrounding. One thing that sometimes many people have underestimated this for a while is reading. That's why, by reading a publication your ability to survive improve then having chance to remain than other is high.
