Loving an Absentminded Astrophysicist By TN Tarrant

2nd Edition

At twenty-three, Dr. Liam McGregor is a well-respected astrophysicist, astrobiologist, and geologist. With no family, few friends, and no romantic prospects, he’s used to being alone. Focusing on his various scientific projects and taking care of his decidedly unusual cat help keep the loneliness at bay.

Jareth Manning is starting life over—new town, new job—after the loss of his husband. The last thing he expects is for the most absentminded, and beautiful, man he’s ever seen to take up residence in his heart. Nor did he expect to find himself a willingly humble slave to Her Imperial Highness, Empress the Cat. But Jareth has learned that love doesn't come around often and to hold on to it when it does. Jareth is willing to be patient if Liam is willing to take a risk after being burned before. They just have to survive Liam’s past returning.

Eight years after Liam and Jareth marry, they want a child. Things don’t go well when they try to adopt, with terrible accusations thrown at Jareth. After recovering, they proceed with a private adoption, bringing home a beautiful little girl, Carinae. Then things get ugly, endangering not only Liam’s life, but Carinae’s.
