Editorial Review

Review
"This is a worthy addition to a medical student's library. It concisely describes important diseases for each organ system and provides detailed illustrations, photographs, radiology, and histological images for each disease process."-Hana Albrecht, DO (University of Kansas Medical Center) **Doody Review: 5 stars**

About the Author
L(ouis) Maximilian Buja, a native of New Orleans, Louisiana, received a B.S. degree in biology, magna cum laude, from Loyola University in 1964. At Tulane University, he earned an M.D. degree with honors in 1967 and a M.S. degree in anatomy in 1968, and completed a medicine internship at Charity Hospital from 1967-68. From 1968-1974, Dr. Buja undertook post-graduate training and research in anatomic pathology and cardiovascular pathology at the National Institutes of Health, Bethesda, Maryland, and became certified in anatomic pathology by the American Board of Pathology. From 1974 to 1989, Dr. Buja was a faculty member in the Department of Pathology at The University of Texas Southwestern Medical Center at Dallas. From 1989 to the present, Dr. Buja has been a faculty member in the Department of Pathology and Laboratory Medicine at the Medical School of The University of Texas Health Science Center at Houston (UTHealth). At UTHealth he has served as department chair, dean and vice president. In December 2009, he became executive director of The Houston Academy of Medicine - Texas Medical Center Library.

Dr. Buja’s scientific career has focused on the pathobiology of cardiovascular diseases. Dr. Buja is internationally recognized for his expertise in cardiovascular pathology and his published research work on the pathogenesis of cardiovascular diseases. In recognition thereof, in 1997, he was elected a fellow of the American Association for the Advancement of Science (AAAS).

Throughout his career, Dr. Buja has shown a strong commitment to medical education. At the national level, he has served on the Residency Review Committee (RRC) for Pathology and the board of directors of the Accreditation Council for Graduate Medical Education (ACGME). In Texas, Dr. Buja was appointed as the first UT Chancellor’s Health Fellow in Education in 2004. He established an annual, statewide Innovations in Medical Education Conference (http://www.utsystem.edu/academy/hse/). He also led the formation of the University of Texas Kenneth I. Shine, MD, Academy of Health Science Education with membership comprised of outstanding educators from the six UT health campuses, and he served as the first president of the Academy, the first such university system-wide health science education academy in the U.S.A. (Buja LM et al. Med Educ Online 2013 March 13;18:1-6). In 2007, Dr. Buja was named a Distinguished Teaching Professor in the University of Texas System. In 2008, Dr. Buja received the Outstanding Alumnus Award from the Tulane Medical Alumni Association, and in 2009, the Distinguished Achievement Award of the Society for Cardiovascular Pathology.

For his entire career, Dr. Buja has taught pathology to sophomore medical students and served as an attending faculty on the anatomic pathology service, engaged in teaching and mentoring medical residents, fellows and junior faculty throughout the year. He has been an advocate of the importance of the autopsy for medical education, research and quality control in healthcare. He has recently expanded the cardiovascular pathology service to establish a cardiovascular pathology fellowship and to focus on heart failure and transplantation as well as aortic diseases in collaboration with his clinical colleagues at UTHealth and Memorial Hermann-Texas Medical Center. For these contributions, Dr. Buja received the 2014 UTHealth President’s Scholar Award for Excellence in Teaching.

Dr. Buja has coauthored and published three atlases of pathology intended to serve as guides for the study of the pathologic basis of disease in concert with diagnostic imaging and clinical medicine. He is currently working as co-editor to publish the fourth edition of Cardiovascular Pathology, the preeminent textbook in the field.

Users Review

From reader reviews:

Ana Steadman:

As people who live in the actual modest era should be change about what going on or facts even knowledge to make these people keep up with the era which can be always change and advance.
