Editorial Review

From the Back Cover
The aim of philosophy of technology is to help us understand technology's complex interrelationships with the environment, society, culture—and with our very existence. *A Companion to the Philosophy of Technology* is the first comprehensive, authoritative reference source for this burgeoning and increasingly important field.

Drawing on groundbreaking new essays by a distinguished team of multi-disciplinary experts, *A Companion to the Philosophy of Technology* delves deeply into technology's impact on our lives and on society. The essays both represent a variety of epistemological approaches, including those of the humanities, social studies, natural science, sociology, psychology, and engineering sciences and reflect a diversity of philosophical traditions such as pragmatism, analytical philosophy, and phenomenology.

Erudite and authoritative, *A Companion to the Philosophy of Technology* is a major contribution to one of the fastest-growing and most vital areas of scholarship and study today.

About the Author
Jan Kyrre Berg Olsen has a Ph.D. in Science Studies and teaches Theory of Science at the Faculty of Public Health, University of Copenhagen. He is the editor of various publications, including a Danish anthology on the concept of "time" in science and *Philosophy of Technology: 5 Questions* (2007).

Stig Andur Pedersen is Professor of Philosophy of Science at Roskilde University. He has published numerous papers on topics such as mathematical logic, mathematical modeling in biology, foundational studies of mathematics and physics, and philosophy of medicine and engineering. He is also the co-author of *Philosophy of Medicine* (1990) and has co-edited several volumes.

Vincent F. Hendricks holds two doctoral degrees in philosophy, is Professor of Formal Philosophy at Roskilde University, and the winner of the Danish Elite Research Prize 2008. His work has been influential on modern mathematical and philosophical logic and concentrates primarily on bringing mainstream and formal approaches to epistemology together. He is the author of numerous texts and papers in this field.

Users Review

From reader reviews:

Hans Diaz:

What do you with regards to book? It is not important along with you? Or just adding material when you require something to explain what you problem? How about your extra time? Or are you busy particular person? If you don't have spare time to do others business, it is gives you the sense of being bored faster. And you have extra time? What did you do? Every individual has many questions above. They need to answer that question due to the fact just their can do this. It said that about e-book. Book is familiar on every person. Yes, it is right. Because start from on guardería until university need this particular A Companion to the Philosophy of Technology to read.

Becky Duncan:

Nowadays reading books be than want or need but also be a life style. This reading habit give you lot of advantages. Associate programs you got of course the knowledge the actual information inside the book that will improve your knowledge and information. The knowledge you get based on what kind of book you read, if you want drive more knowledge just go with knowledge books but if you want sense happy read one together with theme for entertaining such as comic or novel. The particular A Companion to the Philosophy of Technology is kind of book which is giving the reader unpredictable experience.

Charles Sizemore:

Reading can called mind hangout, why? Because while you are reading a book particularly book entitled A Companion to the Philosophy of Technology your head will drift away trough every dimension, wandering in every single aspect that maybe unknown for but surely will become your mind friends. Imaging just about every word written in a e-book then become one form conclusion and explanation that will maybe you never get just before. The A Companion to the Philosophy of Technology giving you one more experience more than blown away your thoughts but also giving you useful information for your better life on this era. So now let us teach you the relaxing pattern the following is your body and mind will be pleased when you are finished examining it, like winning a game. Do you want to try this extraordinary investing spare time activity?
