Debugging with Fiddler: The complete reference from the creator of the Fiddler Web Debugger By Eric Lawrence

Fiddler is a Web Debugging Proxy platform that monitors and modifies web traffic. This freeware tool enables developers, testers, and enthusiasts to inspect traffic, set breakpoints, and "fiddle" with incoming or outgoing data. Fiddler includes powerful event-based scripting, and can be extended using any .NET language. FiddlerCore, the core proxy engine underlying Fiddler, is available to integrate into any .NET application. In this book, you'll learn to fully exploit the power of Fiddler to debug traffic from virtually any web-related application, including Internet Explorer, Google Chrome, Apple Safari, Mozilla Firefox, Opera, and thousands more. You'll see how to debug HTTPS traffic, and use Fiddler with popular devices like iPhone/iPod/iPad, Windows Phone, and others. After exploring the hundreds of built-in features, you'll learn to extend Fiddler using the FiddlerScript engine or build your own applications atop the FiddlerCore class library.

Editorial Review

About the Author
Eric Lawrence (@ericlaw) is best known as the developer of the Fiddler web debugging platform, used by web professionals worldwide. Currently a Program Manager on the Internet Explorer team at Microsoft, Eric has developed web applications and browsers since 1999. He blogs at http://blogs.msdn.com/b/Fiddler and http://blogs.msdn.com/b/IEInternals. In addition to Fiddler, Eric develops and maintains the freeware tools at http://bayden.com/.

Users Review

From reader reviews:

David Boggs:

Can you one of the book lovers? If yes, do you ever feeling doubt when you are in the book store? Aim to pick one book that you never know the inside because don't judge book by its cover may doesn't work at this point is difficult job because you are scared that the inside maybe not since fantastic as in the outside search likes. Maybe you answer is usually Debugging with Fiddler: The complete reference from the creator of the Fiddler Web Debugger why because the amazing cover that make you consider about the content will not disappoint anyone. The inside or content is actually fantastic as the outside or cover. Your reading sixth sense will directly guide you to pick up this book.

Teresa Vanhook:

Reading a book being new life style in this season; every people loves to read a book. When you read a book you can get a large amount of benefit. When you read guides, you can improve your knowledge, since book has a lot of information into it. The information that you will get depend on what kinds of book that you have read. In order to get information about your review, you can read education books, but if you want to entertain yourself read a fiction books, such us novel, comics, as well as soon. The Debugging with Fiddler: The complete reference from the creator of the Fiddler Web Debugger will give you a new experience in reading through a book.

Thomas Schroeder:

In this age globalization it is important to someone to get information. The information will make you to definitely understand the condition of the world. The fitness of the world makes the information much easier to share. You can find a lot of recommendations to get information example: internet, classifieds, book, and soon. You will observe that now, a lot of publisher in which print many kinds of book. The particular book that recommended to your account is Debugging with Fiddler: The complete reference from the creator of the Fiddler Web Debugger this book consist a lot of the information from the condition of this world now. This book was represented how can the world has grown up. The dialect styles that writer use for explain it is easy to understand. Typically the writer made some research when he makes this book. That's why this book

suited all of you.

Ann Cason:

As a university student exactly feel bored in order to reading. If their teacher asked them to go to the library or make summary for some publication, they are complained. Just very little students that has reading's internal or real their passion. They just do what the instructor want, like asked to go to the library. They go to at this time there but nothing reading really. Any students feel that examining is not important, boring and can't see colorful pictures on there. Yeah, it is to be complicated. Book is very important to suit your needs. As we know that on this period of time, many ways to get whatever you want. Likewise word says, many ways to reach Chinese's country. So , this Debugging with Fiddler: The complete reference from the creator of the Fiddler Web Debugger can make you sense more interested to read.
