Who Do You Think You Are Anyway? By Robert A. Rohm

I highly reccommend this rendition of the personalites. I have studied many of the books and methods of understanding the different temperaments over the years, including Meyers Briggs, Hippocrates studies and Florence Littaurs books,(Florence is very entertaining however.) But none give such a complete understanding as The Disc training as Dr. Rohm in this book. He presents it in an interesting and fun way, but also really helps you understand the differences as well as showing you ways of dealing with conflicts and to motivate others that are unlike yourself. I have enjoyed both of Dr. Rohms books immensely, but this by far takes the cake and has truly helped me communicate better with my Family and in my business life.
