Study Guide for Kotz/Treichel/Townsend's Chemistry & Chemical Reactivity, 9th By John C. Kotz, Paul M. Treichel, John Townsend, David Treichel

The Study Guide contains learning tools explicitly linked to the goals introduced in each chapter, chapter overviews, and key terms with definitions. Chapter goals are emphasized by means of further commentary and study tips, worked-out examples, and direct references back to the text.

Editorial Review

About the Author
John C. Kotz is an emeritus State University of New York Distinguished Teaching Professor at the College at Oneonta. Educated at Washington and Lee University, as well as Cornell University, he held National Institutes of Health postdoctoral appointments at the University of Manchester Institute for Science and Technology in England and at Indiana University. Professor Kotz has co-authored three textbooks in several editions - INORGANIC CHEMISTRY, CHEMISTRY & CHEMICAL REACTIVITY, and THE CHEMICAL WORLD - along with the INTERACTIVE GENERAL CHEMISTRY CD-ROM. He also has published research on inorganic chemistry and electrochemistry. He was a Fulbright Lecturer and Research Scholar in Portugal in 1979 and a visiting professor there in 1992, as well as a visiting professor at the Institute for Chemical Education (University of Wisconsin, 1991-1992) and at Auckland University in New Zealand (1999). He also was an invited speaker at a meeting of the South African Chemical Society and at the biennial conference for secondary school chemistry teachers in New Zealand. In addition, a recent tenure as a mentor of the U.S. Chemistry Olympiad Team, Professor Kotz has received numerous honors, including a State University of New York Chancellor's Award (1979), a National Catalyst Award for Excellence in Teaching (1992), the Estee Lectureship in Chemical Education at the University of South Dakota (1998), the Visiting Scientist Award from the Western Connecticut Section of the American Chemical Society (1999), and the first annual Distinguished Education Award from the Binghamton (New York) Section of the American Chemical Society (2001).

Paul M. Treichel, received his B.S. degree from the University of Wisconsin in 1958 and a Ph.D. from Harvard University in 1962. After a year of postdoctoral study in London, he assumed a faculty position at the University of Wisconsin-Madison. He served as department chair from 1986 through 1995 and was awarded a Helfaer Professorship in 1996. He has held visiting faculty positions in South Africa (1975) and in Japan (1995). Retiring after 44 years as a faculty member in 2007, he is currently Emeritus Professor of Chemistry. During his faculty career he taught courses in general chemistry, inorganic chemistry, organometallic chemistry, and scientific ethics. Professor Treichel's research in organometallic and metal cluster chemistry and in mass spectrometry, aided by 75 graduate and undergraduate students, has led to more than 170 papers in scientific journals. He may be contacted by email at treichelpaul@me.com.

John R. Townsend, Professor of Chemistry at West Chester University of Pennsylvania, completed his B.A. in Chemistry as well as the Approved Program for Teacher Certification in Chemistry at the University of Delaware. After a career teaching high school science and mathematics, he earned his M.S. and Ph.D. in biophysical chemistry at Cornell University, where he also received the DuPont Teaching Award for his work as a teaching assistant. After teaching at Bloomsburg University, he joined the faculty at West Chester University, where he coordinates the chemistry education program for prospective high school teachers and the general chemistry lecture program for science majors. He has been the university supervisor for more than 60 prospective high school chemistry teachers during their student teaching semester. His research interests are in the fields of chemical education and biochemistry. He may be contacted by email at jtownsend@wcupa.edu.

David A. Treichel, Professor of Chemistry at Nebraska Wesleyan University, received a B.A. degree from Carleton College. He earned a M.S. and a Ph.D. in analytical chemistry at Northwestern University. After post-doctoral research at the University of Texas in Austin, he joined the faculty at Nebraska Wesleyan University. His research interests are in the fields of electrochemistry and surface-laser spectroscopy. He

may be contacted by email at dat@nebrwesleyan.edu.

Users Review

From reader reviews:

Ernie Swisher:

Do you have favorite book? In case you have, what is your favorite's book? E-book is very important thing for us to know everything in the world. Each guide has different aim or perhaps goal; it means that publication has different type. Some people truly feel enjoy to spend their a chance to read a book. They are reading whatever they consider because their hobby will be reading a book. What about the person who don't like reading through a book? Sometime, man feel need book if they found difficult problem or even exercise. Well, probably you will want this Study Guide for Kotz/Treichel/Townsend's Chemistry & Chemical Reactivity, 9th.

Kimi Frantz:

Reading a e-book tends to be new life style within this era globalization. With looking at you can get a lot of information that may give you benefit in your life. Together with book everyone in this world can easily share their idea. Publications can also inspire a lot of people. Many author can inspire their own reader with their story or even their experience. Not only the storyline that share in the ebooks. But also they write about advantage about something that you need example. How to get the good score toefl, or how to teach your sons or daughters, there are many kinds of book which exist now. The authors nowadays always try to improve their skill in writing, they also doing some research before they write on their book. One of them is this Study Guide for Kotz/Treichel/Townsend's Chemistry & Chemical Reactivity, 9th.

Tenesha Little:

Typically the book Study Guide for Kotz/Treichel/Townsend's Chemistry & Chemical Reactivity, 9th has a lot associated with on it. So when you make sure to read this book you can get a lot of benefit. The book was published by the very famous author. The writer makes some research previous to write this book. This kind of book very easy to read you can obtain the point easily after reading this article book.

Robert Howard:

Playing with family in a very park, coming to see the coastal world or hanging out with good friends is thing that usually you have done when you have spare time, after that why you don't try thing that really opposite from that. A single activity that make you not sense tired but still relaxing, trilling like on roller coaster you are ride on and with addition details. Even you love Study Guide for Kotz/Treichel/Townsend's Chemistry & Chemical Reactivity, 9th, you may enjoy both. It is very good combination right, you still wish to miss it? What kind of hang type is it? Oh come on its mind hangout fellas. What? Still don't obtain it, oh come on its called reading friends.
