Power Tools for the 21st Century By Dr. Richard Alan Miller

The historic context is that the structure of this book is outlined and based on my education and background. This diverse set of backgrounds made me fertile ground for studies in the paranormal. I was essentially bred for this position with both my education and special interests. By 1973, more than 25 scientists and six graduate students were working on various projects, primarily involving ESP and biofeedback studies. So, Seal Corp. wanted to develop a special group within the military, with skills verging on the paranormal. These are the basic tools we discovered in the 1970s to create supermen. They are now made available to duplicate that training (protocols), for use in our daily life. The goal, of course, would be take personal responsibility for our own evolution, by using the toys (power tools) of this century.
