Krishnamurti: Reflections on the Self By Jiddu Krishnamurti

Described by the Dalai Lama as one of the greatest thinkers of the age, Jiddu Krishnamurti has influenced millions throughout the 20th century, including Aldous Huxley, Bertrand Russell, Henry Miller and Joseph Campbell. Born of middle-class Brahmin parents in 1895, Krishnamurti was recognised at age fourteen by theosophists Annie Besant and C W Leadbetter as an anticipated world teacher and proclaimed to be the vehicle for the reincarnation of Christ in the West and of Buddha in the East. In 1929 he repudiated these claims and travelled the world, sharing his philosophical insights and establishing schools and foundations.

Editorial Review

Amazon.com Review
If read closely, this can be a terrifying book. Just as Socrates and Descartes rattled their contemporaries by questioning received wisdom, J. Krishnamurti dispenses with all authority, insisting that each individual find the truth within. And when all conditioned ideas and learned notions are swept away (no falling back on "Plato said this" or "Jesus said that"), nothing is left but the trembling, vulnerable self. Edited by philosophy professor Raymond Martin, this is the first work of Krishnamurti's that has been prepared for a critical reading. As such, it delves into the most basic issues of self-knowledge and identification with the external world--fear, pride, happiness, and most of all, freedom. But be careful, because if Krishnamurti's reasoning is followed with utmost sincerity, you may find your intellectual crutches turned to rubble at your feet.
