Professional DNN7: Open Source .NET CMS Platform By Shaun Walker, Bruce Chapman, Cathal Connolly, Peter Donker, Israel Martinez, Charles Nurse, Chris Paterra, Clinton Bland, Ashish Prasad, Nathan Rover, Mitchel Sellers, Dennis Shiao, Will Strohl, Erik van Ballegoij, Scott Willhite, Ralph Williams Jr.

A variety of positive change has recently taken place in the DNN ecosystem, code base, and underlying technology. *Professional DNN7: Open Source .NET CMS Platform* provides thorough coverage of all aspects of DNN including the latest features, API's, and updates. Looking to ramp up your knowledge of DNN7? If so, this book is for you! In this book, you'll learn how to install, configure, administer, develop modules, and much more!

DNN has undergone a significant transformation over the past 4 years. The rebrand from DotNetNuke to DNN was just the start. The entire platform was migrated from VB to C#, the user interface was overhauled providing a much-improved user experience, dramatic improvements in functionality & performance were made including support for social collaboration and mobile devices. Recently API's that make modern, client-side development easy have been introduced as well. The underlying technology platform has migrated from ASP.NET 2.0 to ASP.NET 4.0 and DNN has also integrated Microsoft's Web API as the service framework at the core of the DNN solution. All of these enhancements provide developers with a lot of power in one solution.

In previous Professional DotNetNuke books, DotNetNuke founder Shaun Walker authored a popular introductory chapter covering the evolution of the DNN open source project. He will expand this initial chapter with information about venture capital funding, commercialization, and software business insights – which will be of interest to DNN enthusiasts, as well as technology entrepreneurs.

DNN site builders, administrators, and developers will learn how to:

- determine if they have met the installation requirements and install DNN
- administer and host a DNN site and install and configure modules
- manage users and keep a DNN installation secure
- localize a DNN site for multiple languages

- build custom DNN modules in C# using the model of separation of database, business logic, and presentation layers
- customize the DNN look with skinning
- make their site social with EVOQ

Editorial Review

From the Back Cover

Your complete insiders' guide to learning DNN7

DNN7 is the result of significant transformation and capability expansion. The entire platform has migrated to C#, the user interface has undergone a drastic overhaul, and functionality has been dramatically improved with new tools and features. This book is the straight-from-the-source solution for getting up to speed, with clear instruction and key insights from DNN founder Shaun Walker and well-known contributors from the DNN team. From the move to ASP.NET 4.0, to the DNN App Store, to insider advice on the business side of software, this book is the ultimate handbook to the latest iteration of DNN.

Professional DNN7 shows you how to:

- Install DNN, manage users, and keep the DNN installation secure with expanded functionality
- Administer and host a DNN site, and install and configure modules using brand-new features
- Localize a DNN site for multiple languages, and utilize third-party commercial add-ons supported by hundreds of ISVs
- Build custom DNN modules in C# or VB, using the model of separation of database, business logic, and database layers
- Customize the look of DNN with skinning, and exploit new support for social collaboration and mobile devices

Wrox Professional guides are planned and written by working programmers to meet the real-world needs of programmers, developers, and IT professionals. Focused and relevant, they address the issues technology professionals face every day. They provide examples, practical solutions, and expert education in new technologies, all designed to help programmers do a better job.

About the Author

About the authors and technical editors:

Shaun Walker is the original creator of DNN, the founder of DNN Corp., a Microsoft MVP since 2004, and is currently the Director & Innovation Group Lead at Arrow Consulting & Design.
