The Oxford Handbook of Hypnosis: Theory, Research, and Practice (Oxford Library of Psychology) By Michael R. Nash, Amanda J. Barnier

The Oxford Handbook of Hypnosis is the long overdue successor to Fromm and Nash's Contemporary Hypnosis Research (Guilford Press), which has been regarded as the field's authoritative scholarly reference for over 35 years. This new book is a comprehensive summary of where field has been, where it stands today, and its future directions. The volume's lucid and engaging chapters on the scientific background to the field, fully live up to this uncompromising scholarly legacy. In addition, the scope of the book includes 17 clinical chapters which comprehensively describe how hypnosis is best used with patients across a spectrum of disorders and applied settings. Authored by the world's leading practitioners these contributions are sophisticated, inspiring, and richly illustrated with case examples and session transcripts. For postgraduate students, researchers and clinicians, or anyone wanting to understand hypnosis as a form of treatment, this is the starting point.

Unequalled in its breadth and quality, The Oxford Handbook of Hypnosis is the definitive reference text in the field.

Editorial Review

Review

"Kihlstrom provides an integrative and elegantly writtintroduction to the field of hypnosis...the chapter by Benham and Younger on hypnosis and mind's body interactions presents an excellent, comprehensive review of the nature and extent to which hypnotic manipulations can (or cannot) alter physiological processes."--*PsycCritiques*

Winner of the 2009 Arthur Shapiro Award for the Best Book in Hypnosis, as presented by the Society of Clinical and Experimental Hypnosis's president, Richard Kluft!

About the Author

Mike Nash is one the world's leading experts on hypnosis. He is a prolific researcher and clinical educator, who also maintains an active clinical practice. He is Professor of Psychology at the University of Tennessee, and is Editor Emeritus of The International Journal of Clinical and Experimental Hypnosis, the world's premiere venue for scientific and applied hypnosis. He received his Ph.D. from Ohio University in 1983 and completed his clinical internship at Yale University School of Medicine Department of Psychiatry in the same year. He has published two books, one on the research foundations of hypnosis and another on integrating hypnosis into clinical practice. He is a Diplomate in Clinical Psychology (ABPP), and is the recipient of 18 national and international awards for his scientific, clinical, and teachng accomplishments. Amanda Barnier is an Associate Professor and Australian Research Council (ARC) Australian Research Fellow in the Macquarie Centre for Cognitive Science, Macquarie University, Sydney, Australia. Amanda began her career in Psychology at Macquarie University, graduating in 1991 with a BA(Hons). She completed a PhD in Psychology (1996) at the University of New South Wales (UNSW), and postdoctoral work at the University of California, Berkeley. Amanda then returned to Australia and UNSW as an ARC Postdoctoral Fellow and later as an ARC Queen Elizabeth II Fellow. She returned to Macquarie University in 2007.

Users Review
