When you're trying to learn a new language, what's the first thing you do?

If you're like most people, you wouldn't say, "Listen." But listening is exactly what you should do.

Anthropologists estimate that human language has been around for at least 100,000 years, while written language has only been around for about the last 6,000. Sure, reading and writing are important skills to develop, but the engine that drives language acquisition is hearing a language's sounds, rhythms, tones, and stresses.

Language Master Key teaches you a 3-part strategy you can start using today to learn any language you want. Included in the book are detailed, step-by-step instructions, as well as a 21-Day Language Blast program to get you started.

Ron Gullekson drew upon over a decade of experience as a language student, translator, and professional writer and researcher to develop the Language Master Key program.
