Editorial Review

Review
"This is the best book I have ever read." - Anonymous reviewer

"Four score and seven years ago this book helped me debug my server code." -Abraham Lincoln

"Would my Javascript have memory leaks without this book? Would fishes fly without water?" -Socrates

"This book is the greatest victory since the Spanish Armada, and the best about programming." -Queen Elizabeth

From the Author
For those who are kindle fans, welcome!

This book contains plenty of beautiful code examples, which have been carefully prepared to look good in print. Unfortunately, I've had trouble even making them legible on the Kindle. I would rather not create an e-book that is illegible, merely to make more sales. It's difficult to make this kind of book into an excellent e-book.

For now, I suggest you get the print version and enjoy the beauty of the examples. You can even try to solve the maze on the cover.

About the Author
Kate has been programming since her family got a Commodore 64 computer when she was young. Her teaching career began shortly after when she taught her brothers the basics of programming. Kate has worked in the computer industry for decades. She's worked for Qualcomm, Amazon, AOL and Verizon, but she prefers the environment in smaller companies. As she gained experience, she realized there were things her coworkers didn't understand, and she wished they did. That is when she started writing. Her books start basic, but also include advanced concepts. Kate hopes you enjoy her book!

Users Review

From reader reviews:

Vivian Bennett:

What do you think of book? It is just for students since they are still students or the item for all people in the world, the actual best subject for that? Simply you can be answered for that issue above. Every person has diverse personality and hobby per other. Don't to be pushed someone or something that they don't need do that. You must know how great as well as important the book Zero Bugs and Program Faster. All type of book would you see on many methods. You can look for the internet options or other social media.

Gerald Toups:

Reading a reserve can be one of a lot of activity that everyone in the world enjoys. Do you like reading book

and so. There are a lot of reasons why people enjoy it. First reading a book will give you a lot of new information. When you read a guide you will get new information mainly because book is one of numerous ways to share the information or even their idea. Second, reading a book will make anyone more imaginative. When you examining a book especially fiction book the author will bring that you imagine the story how the personas do it anything. Third, you may share your knowledge to others. When you read this Zero Bugs and Program Faster, you are able to tells your family, friends as well as soon about yours book. Your knowledge can inspire the others, make them reading a e-book.

James Ray:

The guide untitled Zero Bugs and Program Faster is the guide that recommended to you to read. You can see the quality of the reserve content that will be shown to you. The language that article author use to explained their way of doing something is easily to understand. The copy writer was did a lot of study when write the book, therefore the information that they share for your requirements is absolutely accurate. You also could possibly get the e-book of Zero Bugs and Program Faster from the publisher to make you a lot more enjoy free time.

Charlene Stidham:

As a scholar exactly feel bored for you to reading. If their teacher expected them to go to the library or even make summary for some book, they are complained. Just small students that has reading's heart or real their pastime. They just do what the instructor want, like asked to the library. They go to presently there but nothing reading very seriously. Any students feel that looking at is not important, boring and can't see colorful photos on there. Yeah, it is to get complicated. Book is very important to suit your needs. As we know that on this era, many ways to get whatever we want. Likewise word says, ways to reach Chinese's country. Therefore this Zero Bugs and Program Faster can make you truly feel more interested to read.
