Trail of Evil (Tau Ceti Agenda Book 4) By Travis S. Taylor

BOOK #4 IN THE BEST?SELLING TAU CETI AGENDA SERIES.

A century and a half after the Martian Separatist Wars, and the final defeat of insane terrorist leader El Ahmi, Alexander Moore returns to the stars with the *Sienna Madira*, a United States Navy supercarrier spacecraft outfitted with advanced FTL and endlessly strange, extremely effective, quantum?based weapons and remote sensing technology. And, of course, he's brought Marines, and lots of them. These are troops superbly trained for space battle, and equipped with advanced powered armor and artificial intelligence backup.

Moore's task: hunt down remnant weaponry platforms left by the brilliant, mad artificial intelligence known as Copernicus, the being ultimately responsible for the Solar System wide civil war. Yet Moore is about to uncover something far more sinister: before his destruction, Copernicus had established multiple mecha?warrior defended bases with the intent of resuming the destruction of humanity. Worse, an a.i. presence even more dangerous, evil, and clever than Copernicus may have formed an alliance with something *else* out there with a similar goal: wipe humanity from the galaxy forever.

But those enemies will have to face a fully armed and equipped military task force led by a resolute general and his soldiers who *know* they are all that stand between human life, freedom, and progress—and the total annihilation of mankind.

At the publisher's request, this title is sold without DRM (Digital Rights Management).

About Travis S. Taylor
“[E]xplodes with inventive action.—*Publishers Weekly* on Travis S. Taylor’s *The Quantum Connection*.

“[Warp Speed] reads like Doc Smith writing Robert Ludlum. . .You won’t want to put it down”—John Ringo

Dr. Travis S. Taylor is the co-creator and star of the National Geographic Channel’s hit series, *Rocket City Rednecks*. Taylor is a physicist who has worked on various programs for the Department of Defense and NASA for the past twenty years. His expertise includes advanced propulsion concepts, very large

space telescopes, space based beamed energy systems, future combat technologies, and next generation space launch concepts. Taylor is also the author of pulse-pounding, cutting edge science fiction with the Tau Ceti Agenda series including *One Good Soldier*, *The Tau Ceti Agenda*, *One Day on Mars* and his ground-breaking Warp Speed series, with entries *Warp Speed* and *The Quantum Connection*.
