Flying the Weather Map (General Aviation Reading series) By Richard L. Collins

Written for pilots who want to improve their flight weather forecasting skills, this manual provides an in-theory and logic of aviation weathercasting and an analysis of 46 instrument flight rules (IFR) cross-country airplane in all seasons. Each flight episode is illustrated with pre-takeoff upper-level and surface weather chart, which clearly traces the progress of the flight and the actual in-flight weather conditions.
