Review
"It is written by eminent clinicians and endorsed by service users and specialist forums. . . Terminology if clear and concise with rationale for clinical procedures explored clearly. The inclusion of a clinical conditions list is useful and makes cross referencing easy for the reader." (Nursing Children and Young People, 1 October 2011)

“Written to be experts in the field, it provides the core foundations for the UK advanced paediatric life support course. I recommend this resource for all staff working with children.” (*Nursing Standard*, 1 September 2012)
