Local Economic Development in the 21st Century: Quality of Life and Sustainability By Daphne T Greenwood, Richard P F Holt

Provides a comprehensive look at local economic development and public policy, placing special emphasis on quality of life and sustainability. It draws extensively on case studies, and includes both mainstream and alternative perspectives in dealing with economic growth and development issues. The contributions of economic theories and empirical research to the policy debates, and the relationship of both to quality of life and sustainability are explored and clarified.

Editorial Review

Review
"A very readable book for non-economists. It makes a compelling case for the natural compatability of quality of life factors and sustainable economic development." --Chris Gibbons, Director of Business/Industry Affairs, Littleton, Colorado

"Though the policy implications are about the best ways of 'acting locally,' the book has important implications for policy makers and public officials on the national level as well." --Edward Wolff, New York University

"Though the policy implications are about the best ways of 'acting locally,' the book has important implications for policy makers and public officials on the national level as well." --Edward Wolff, New York University
